Revision Date 09-17-2014 **Revision Number 1** 

### SECTION 1 Identification of the substance/mixture and of the company/undertaking

Product identification used on label

**Product identifier** 3005

TECTYL 287

Details of the supplier of the safety

data sheet

**Daubert Chemical Company** 4700 S. Central Avenue

Chicago, IL 60638

708-496-7350

**Emergency telephone number** Relevant identified uses of the substance or mixture and uses

advised against

Chemtrec: (800) 424-9300 Corrosion Preventive Compound

### **SECTION 2 Hazards identification**

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

**GHS Hazard Symbols** 

**GHS** Flammable Liquid Category 3

Classification

Signal Word Warning

Flammable liquid and vapour. Hazard

**Statements Precautionary Statements** 

**Prevention** Keep away from heat/sparks/open flames/hot surfaces. – No smoking.

Keep container tightly closed.

Ground/bond container and receiving equipment.

Use explosion-proof equipment. Use only non-sparking tools.

Take precautionary measures against static discharge.

Wear protective gloves/protective clothing/eye protection/face protection. IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing.

Response

Rinse skin with water/shower.

Use dry chemical, water fog, CO2, foam or sand/earth for extinction.

Keep container tightly closed. **Storage** 

Store in a well-ventilated place. Keep cool.

**Disposal** Dispose of contents/container in accordance with

local/regional/national/international regulation for hazardous wastes.

TECTYL 287 Page 1 of 6

Revision Date 09-17-2014 Revision Number 1

### **SECTION 3 Composition/information on ingredients**

Chemical Name	CAS#	%
Hydrotreated light distillate (Petroleum)	64742-47-8	40 - 70

Note: Specific chemical identities and/or exact percentages have been withheld as a trade secret.

#### **SECTION 4 First aid measures**

Inhalation	If arimentama and	. arranian and mana	via soumaa of aa	mtamination on m	ove victim to fresh air	and
Inhalation	II symptoms are	e experiencea rema	ive source of co	mtamination or m	ove vicum to fresh air	and

obtain medical advice.

**Eyes** Flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt the head to

prevent chemical from transferring to the uncontaminated eye. Get immediate medical

attention.

**Skin Contact** Wash with soap and water. Remove contaminated clothing and launder. Get medical attention

if irritation develops or persists.

**Ingestion** Do not induce vomiting and seek medical attention immediately. Provide medical care

provider with this SDS.

**Note to Doctor** Treat symptomatically.

### **SECTION 5 Firefighting measures**

Extinguishing media	Use alcohol resistant foam, carbon dioxide, dry chemical, or water spray
---------------------	--

when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the fire. Do not direct a water stream directly into the hot

burning liquid.

**Fire and/or Explosion Hazards**Material may be ignited if preheated to temperatures above the flash

point in the presence of a source of ignition. Empty containers that retain product residue (liquid, solid/sludge, or vapor) can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose container to heat, flame, sparks, static electricity, or other sources of ignition. Any of these actions can potentially cause an explosion that

may lead to injury or death.

**Fire Fighting Methods and Protection** Do not enter fire area without proper protection including self-contained

breathing apparatus and full protective equipment. Fight fire from a safe distance and a protected location due to the potential of hazardous vapors and decomposition products. Use appropriate methods for the

surrounding fire.

Hazardous Combustion Products Carbon dioxide, Carbon monoxide, Sulfur oxides, Hydrocarbons

#### **SECTION 6 Accidental release measures**

Personal precautions, protective equipment and emergency procedures

Exposure to the spilled material may be irritating or harmful. Follow personal protective equipment recommendations found in Section VIII of this SDS. Additional precautions may be necessary based on special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred. Also consider the expertise of employees in the area responding to the spill.

Methods and materials for containment and cleaning up

Absorb or cover with dry earth, sand or other non-combustible material and transfer to appropriate waste containers. Use clean, non-sparking tools to collect absorbed material. Collect and discard in accordance

with local, state and national regulations.

TECTYL 287 Page 2 of 6

Revision Date 09-17-2014 Revision Number 1

**SECTION 7 Handling and storage** 

**Precautions for safe handling** Avoid contacting and avoid breathing the material. Use only

in a well ventilated area. As with all chemicals, good

industrial hygiene practices should be followed when handling this material. Wash thoroughly after handling. Do not get in eyes, on skin and clothing. Ground and bond containers when transferring material. "Empty" containers retain product

residue (liquid and/or vapor) and can be dangerous.

Store in a cool dry place. Isolate from incompatible

Conditions for safe storage, including any

incompatibilities

materials.Keep container closed when not in use. Keep away

from heat, sparks, and flame.

Incompatible materials Strong oxidizing agents, Hypochlorites, Chlorine

**SECTION 8 Exposure controls/personal protection** 

**Control parameters** 

Chemical Name ACGIH TLV ACGIH STEL OSHA PEL

Hydrotreated light distillate (Petroleum) 100 ppm (8hrs) 500 ppm (8 hr)

Hydrotreated (mild) heavy naphthenic 5 mg/m3 (mist) 5 mg/m3 (mist)

**Engineering Measures** Local exhaust ventilation or other engineering controls are normally required when

handling or using this product to avoid overexposure. Engineering controls must be designed to meet the OSHA chemical specific standard in 29 CFR 1910. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne

levels below recommended exposure limits

**Respiratory Protection** Proper ventilation (at a minimum) will be required when handling this product. Use

respirators (NIOSH approved) only if ventilation cannot be used to eliminate symptoms or reduce the exposure to below acceptable levels. Follow a respiratory protection program that meets 29 CFR 1910.134 and ANSI Z88.2 requirements whenever work

place conditions warrant the use of a respirator.

**Eye Protection** Wear chemically resistant safety glasses with side shields when handling this product.

Do not wear contact lenses.

**Skin Protection** Wear protective gloves. Inspect gloves for chemical break-through and replace at

regular intervals. Clean protective equipment regularly. Wash hands and other exposed

areas with mild soap and water before eating, drinking, and when leaving work.

Gloves Chemically resistant gloves

### **SECTION 9 Physical and chemical properties (Typical, not specification)**

### **SECTION 10 Stability and reactivity**

Chemical stability Stable under normal conditions. Hazardous polymerization

will not occur.

Possibility of hazardous reactions Strong oxidizing agents, Hypochlorites, Chlorine

**Conditions to avoid** Contamination. Elevated temperatures.

Incompatible materials Strong oxidizing agents, Hypochlorites, Chlorine

**Hazardous decomposition products**Decomposition and hazardous decomposition products are

unlikely.

### **SECTION 11 Toxicological information**

**Likely Routes of Entry** Inhalation, Skin contact, Eye contact

Target Organs Potentially Affected by Exposure Kidneys, Liver, Eyes, Respiratory Tract, Lungs, Skin, Central

Nervous System

**Chemical Interactions That Change Toxicity** 

**Medical Conditions Aggravated** 

No chemical interaction known to affect toxicity.

Liver disease, Skin contact may aggravate existing skin

disease, Kidney disease, Respiratory disease including asthma

and bronchitis

#### **Immediate (Acute) Health Effects by Route of Exposure**

**Inhalation Irritation** Can cause moderate respiratory irritation, dizziness, weakness, fatigue, nausea and

headache. Can cause mechanical irritation if dusts are generated. Other possible symptoms include; wheezing and coughing due to pulmonary edema (fluid build-up in

lungs).

**Inhalation Toxicity** Non-Toxic. Not known to cause systemic damage.

**Skin Contact** Can cause moderate skin irritation, defatting, and dermatitis. Not likely to cause

permanent damage.

**Skin Absorption** No absorption hazard expected in normal industrial use.

TECTYL 287 Page 4 of 6

Revision Date 09-17-2014 Revision Number 1

**Eye Contact** Can cause moderate irritation, tearing and reddening, but not likely to permanently injure

eye tissue.

**Ingestion Irritation** Irritating to mouth, throat, and stomach. Can cause abdominal discomfort, nausea,

vomiting and diarrhea. Substance is harmful if swallowed. Large exposure may be fatal.

**Ingestion Toxicity** Harmful if swallowed.

Long-Term (Chronic) Health Effects

**Carcinogenicity** Not listed by ACGIH, IARC, NIOSH, NTP OR OSHA.

**Reproductive and Developmental Toxicity** No data available to indicate product or any components present at

greater than 0.1% may cause birth defects.

Mutagenicity No data available to indicate product or any components present at greater than 0.1% is

mutagenic or genotoxic.

**Inhalation** Upon prolonged and/or repeated exposure, can cause severe respiratory irritation,

dizziness, weakness, fatigue, nausea, headache and possible unconsciousness. Can cause

systemic damage upon prolonged and/or repeated exposure (see "Target Organs)

**Skin Contact** Upon prolonged or repeated contact, can cause minor skin irritation, defatting, and

dermatitis.

**Skin Absorption** Upon prolonged or repeated exposure, no hazard in normal industrial use.

**Component Toxicology Data** 

Chemical Name CAS Number LD50/LC50

Hydrotreated light distillate 64742-47-8 Dermal LD50 Rabbit > 2000 mg/kg Oral LD50 Rat > 5000 mg/kg

(Petroleum)

**SECTION 12 Ecological information** 

**Overview** No ecological information available

MobilityNo dataPersistenceNo dataBioaccumulationNo dataDegradabilityNo data

**Ecotoxicity Data** 

Chemical Name CAS Number Aquatic EC50 Aquatic ERC50 Aquatic LC50

Crustacea Algae Fish

No data available

**SECTION 13 Disposal considerations** 

**Waste Description for Spent Product** Spent or discarded material may be a hazardous waste.

**Disposal Methods** Dispose of by incineration following Federal, State, Local, or Provincial

regulations.

Waste Disposal Code(s) D001

**SECTION 14 Transport information** 

Full Shipping Name for UN1268, PETROLEUM DISTILLATES, N.O.S., (Naphtha Solvent), 3, PG III

Export, Air, Sea (any

quantity) or vessels of 119 gal.

or more:

**Domestic Ground in vessels <** Not Regulated

119 gal.
